Medical Devices registered of the Health Ministry
TUV Certification No. 15-PEL-0010022-TIC

¹Weight refers to device excluding battery and arms for wheelchair connection.

²Range refers to device with 36 V battery on a flat route at medium speed of 6 km/h (level 1) with user weight of 70 kg. Range depends on: user weight, road condition, general state of the wheelchair and tires, condition of the battery, speed and type of driving.

³USB port, to recharge devices such as smartphones or tablets, is available depending on the chosen display.

Triride srl reserves the right to modify the models with updates and innovations and therefore the images may differ from the final product sold.
